

How to Make Vape Oil with Levo 2: The Ultimate Guide

If you're a cannabis enthusiast looking for an easy way to make your own vape oil, the Levo 2 oil infuser is your perfect companion. As an upgraded version of the original Levo, the Levo 2 offers an automated, mess-free process to infuse oils with your favorite herbs and vegetables. In this guide, we will explore [How to Make Vape Oil with Levo 2](#) and delve into its standout features and performance.

What is Levo 2?

The Levo 2 is a kitchen appliance designed to simplify the process of infusing oils with various herbs and vegetables. It's compact and easy to use, fitting seamlessly into any kitchen setup. While it excels at creating cannabis-infused oil, the Levo 2 can also infuse oils with other cooking herbs like rosemary and basil. It can work with various oils, including avocado, grapeseed, and coconut oil. With endless possibilities, you can use the Levo 2 to create unique edible oils for cooking and flavoring your dishes.

Key Features of Levo 2

Automated process

The [Levo 2](#) has an entirely automated process, eliminating the need for manual operation or changing parts.

Wi-Fi compatibility and app control

You can monitor and control the infusion process through the Levo app on your phone, allowing for easy customization.

Touchscreen interface

The Levo 2 features a touchscreen for setting temperature and timer for drying and infusion processes.

Improved chamber

The new chamber is lined with ceramic for better oil drainage compared to the older model. Accessories: The Levo 2 comes with a power pod, reservoir, and a magnetic silicone stirrer.

How to Make Vape Oil with Levo 2

1. Connect your Levo 2 to Wi-Fi and pair it with the app.
2. Fill the power pod with your chosen herb (e.g., cannabis) and place it inside the reservoir.
3. Select the activation cycle on the touchscreen or through the app. The default setting is 249 F for 30 minutes, plus 15 minutes to reach the desired temperature. This step activates the cannabinoids in the cannabis for the desired effect when consumed.
4. After the activation cycle, pour two to two and a half cups of your preferred oil into the reservoir.
5. Set the infusion at 175 F for two to two and a half hours.
6. Once the infusion process is complete, press the drop icon button and pour the oil into a container. [How to Vape?](#)

Cleaning Levo 2

Cleaning the Levo 2 is easy. Remove all removable parts and wash them by hand or in the dishwasher. Wipe down non-removable parts with a moist and hot cloth. Use a q-tip or pipe cleaning wire for hard-to-reach areas.

Conclusion

The Levo 2 is a powerful, versatile kitchen appliance for anyone looking to infuse oils with herbs and vegetables. Its automated process and Wi-Fi compatibility make it easy to use, and its compact design ensures it fits in any kitchen. Whether you're making cannabis-infused oil or experimenting with other herbs, the Levo 2 is your ideal companion. [How to Vape?](#)

People also ask

Is the Levo 2 worth it?

Considering its dual function as a decarboxylator and oil infuser, the Levo 2's \$299 price tag is a good deal.

How many colors does the Levo 2 come in?

The Levo 2 is available in seven colors: black, pink, green, blue, dark green, red, and honey cream.

How long does the Levo 2 take to infuse?

The entire process takes three hours and 15 minutes. Decarbing takes 45 minutes, and the infusion process takes two hours and 30 minutes.

Can the Levo 2 make tincture?

No, the Levo 2 cannot make tinctures as it is not designed to be used with alcohol.

Can the Levo 2 make vape oil?

The company does not recommend using the Levo 2 to make vaping oils, stating that it is designed for edible oils and butters only.
